

40-30 one-stop shop maintenance solutions

AREAS OF EXPERTISE

Vacuum technology / Gas analysis
Electronics / Electrotechnics
Cleaning & ultraclean refurbishment
Service & repair on production
and laboratory equipment

ADDITIONAL SERVICE

Calibration
Decontamination
Retrofit
Assembly in clean room environment

40-30

AREAS OF EXPERTISE

Vacuum technology Gas analysis

- All vacuum pumps
Turbomolecular, cryogenic, rotary vane, dry, diffusion, ion pumps...
- Pumping station
- Leak detectors
- RGA
- Mass Spectrometer
- Metrology / Calibration
- Valves

Cleaning & ultraclean refurbishment

- ISO 7 and ISO 5 clean rooms
- Wide range of decontamination devices
- Cleanliness, surface control measurement and characterisation
Particle counters, MEB, AFM, ICPMS, optic surface controllers...

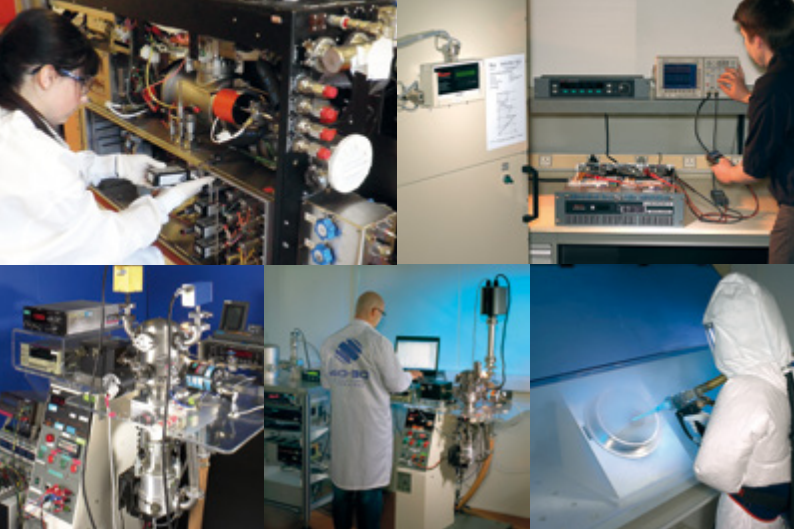

Electronics Electrotechnics

- Electronic equipment
Analog, digital, LV, HV, LF, HF... Electronic meters, motors, chillers, heaters, ovens, compressors...
- Automation and robotics
- RF equipment
RF power supplies, matchboxes...

Service and repair on production and laboratory equipment

- Non destructive testing
- Assembly, installation & qualification
- Degassing measurement
- Seals & welding inspection
- Calibration
- Laboratory equipment reconditioning and testing

FULL RANGE OF SOLUTIONS

CORRECTIVE AND PREVENTIVE MAINTENANCE
 EQUIPMENT & SUBSIDIARIES SPECIFIC DECONTAMINATION
 REFURBISHMENT, UPGRADES & RETROFITS
 SUPPLY OF NEW & REFURBISHED EQUIPMENT & PARTS
 CALIBRATION & TESTING (ISO/IEC 17025:2005)
 INSTALLATION, COMMISSIONING & DECOMMISSIONING
 END-USER TRAINING • ONLINE JOB TRACKING
 INVENTORY MANAGEMENT
 RENTAL SERVICE
